## What's in the box?

"3 Canna Pod" basin

2 x Light Stands

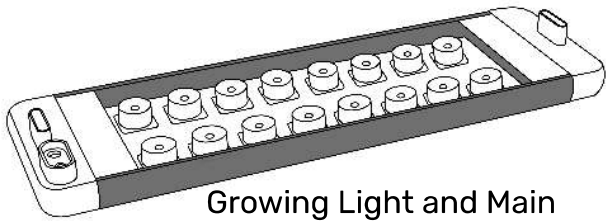

Water Level Floater

Manual

Power Adaptor

Growing Light and Main Controller

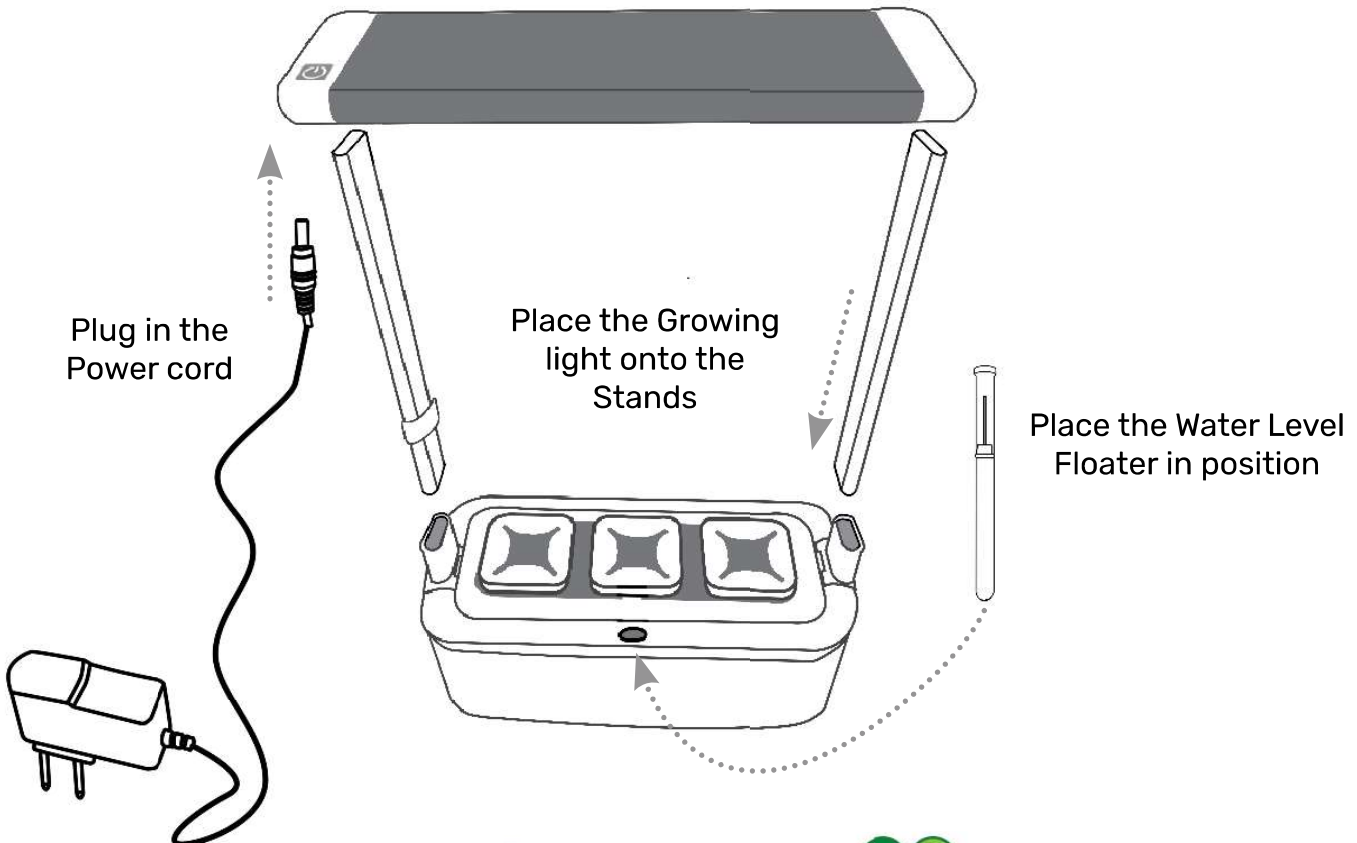

3 x Sachets of Fertilizer

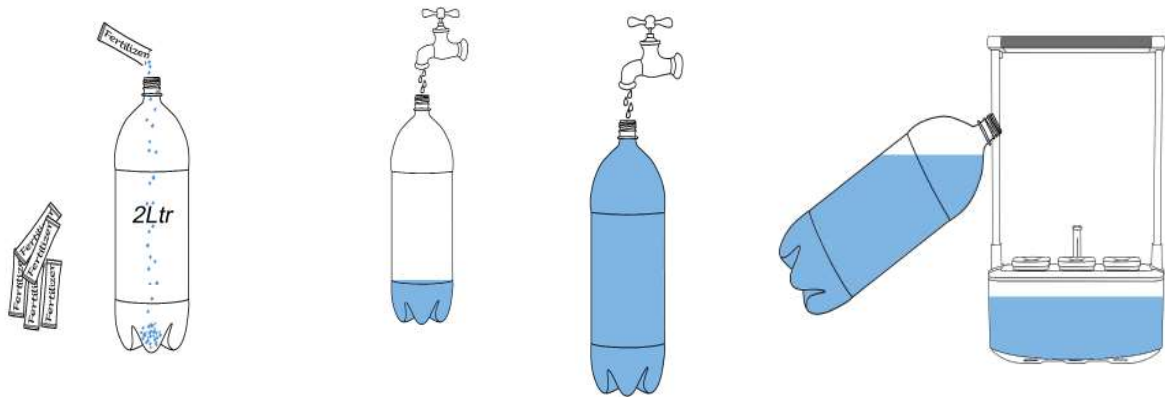

3 x Seeded Canna Pods  
(Chosen Strain/Flavours)

## How to assemble it ?

## Lets start growing!

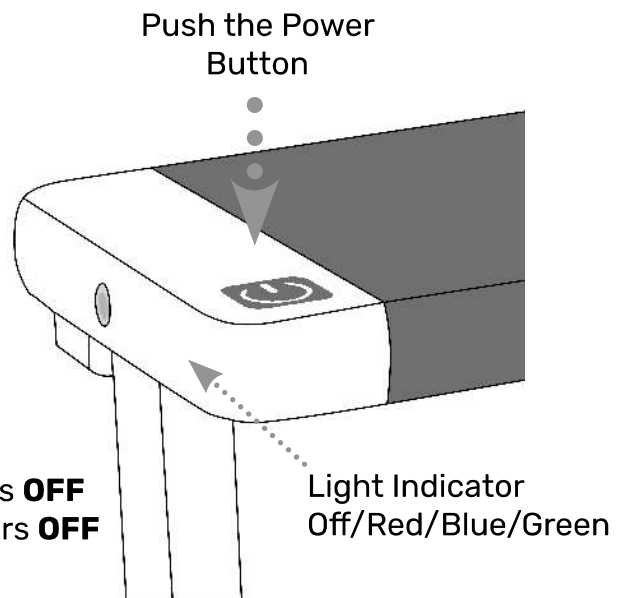

Mix 1 Sachet Hydroponic water soluble fertilizer with 2 litres of water.

## Start the Growing cycle.

Each time you Push the Power Button the Grow light timer will change the cycle:

- RED:** Grow Light will be on all the time
- BLUE:** Grow Light will be **16 Hours ON** and **8 hours OFF**
- GREEN:** Grow Light will be **12 Hours ON** and **12 hours OFF**

## Tips to successfully grow your Cannabis Plants.

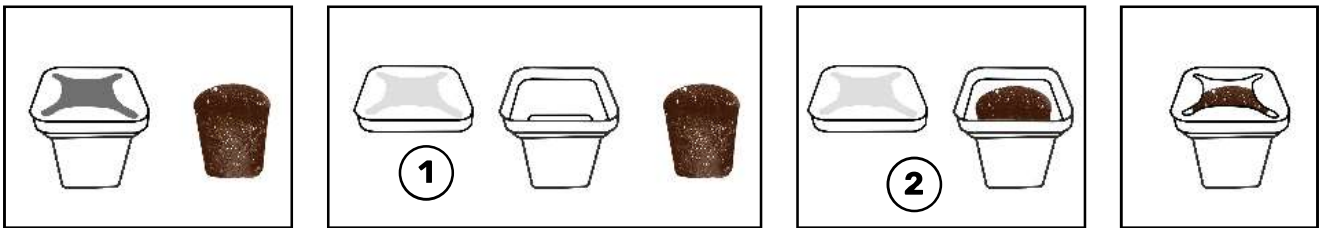

- Use LED grow light Timer mode 2 **BLUE** : **16** hours **ON** and **8** hours **OFF**.
- If the water level gets too low, as indicated by the red water level floater, please top up with fertilizer solution until you reach max volume .
- Ensure the room temperature does not stay below 16 C.
- When the plant reaches the height of the LED light, it's time to plant the **Canna Pod** in the garden or in a container with living organic soil.
- After the **Canna Pod** has been removed, clean the **Canna Pod** container and the water tank thoroughly. Refill the **Canna Pod** containers with pre-seeded **Canna Pods** from Cannamart - you can purchase these separately.
